

TRANSPORTATION - SANTA BARBARA

Flights to Santa Barbara (SBA)

Santa Barbara Regional Airport is only 6 minutes from the Bacara Resort & Spa. Flights to Santa Barbara are available from the following airports:

- DEN - Denver, CO - United Airlines
- DFW - Dallas/Ft.Worth - American Airlines
- LAX - Los Angeles, CA - United Airlines
- PDX - Portland, OR - Alaska Airlines
- PHX - Phoenix, AZ - American Airlines
- SEA - Seattle, WA - Alaska Airlines
- SFO - San Francisco, CA - United Airlines

Bacara does not have a shuttle from the Santa Barbara Regional Airport, but it is a short cab to the resort.

From Los Angeles (LAX)

If you are flying into LAX and renting a car to get to Bacara, you can expect travel time to be about 1-3/4 hours in non-rush hour traffic. Peak travel times to avoid are morning and evening commute times.

Driving to Bacara is mostly a multi-lane highway. It is an easy drive but expect heavy traffic in some spots during commute times. In the late afternoon/early evening, traffic will be heavy and slow on the northbound 405. Tune your radio to AM 1070. They will give you a traffic report every 10 minutes, on the fives. Often they will tell you why the traffic is so slow where you are.

If you have the time, an option is the beautiful scenic route along PCH (Pacific Coast Highway 1) through Malibu and on into Ventura and on to Santa Barbara.

If you do not want to rent a car from LAX, you could take the Santa Barbara shuttle bus:
